

Michael Cronin

Queens, NY, 11385 * mikecronin92@gmail.com * (860) 510-1465

Summary

I've worked in the TV industry for years, but it feels like it's time for a change. Since March 2017, I've been teaching myself the languages needed for front-end web development. I've also focused on some other topics like the Linux command line, the Vim text editor, and Git. And just for fun, I built a 5" Raspberry Pi computer with a 3D printed case.

Skills

Web Skills: **HTML5, CSS3, Sass, JavaScript, jQuery, PHP, FileZilla**
Other languages and systems: **Python, Git, Vim, Ubuntu, Mac OS**
Media Editors: **Adobe Xd, Photoshop, Illustrator, Premiere**

Projects

Easy Palettes - *App that saves and copies hex code palettes for your site*

Project Goals:

- Put basics of jQuery into practice
- Incorporate third party JavaScript plugin, in this case "JS Color"
- Use local storage API and JSON to keep saved data on client side

Neat Cheap Tech - *A site using PHP classes to show and sort similar items*

Project Goals:

- Learn fundamentals of the PHP language
- Especially sorting multidimensional arrays and GET/POST requests
- Using object oriented principles to template HTML document

Portfolio Site - *A showcase site*

Project Goals:

- Effectively use Flexbox, Media Queries, CSS animations
- Use Sass to create pure CSS carousel to show previous graphics work
- Use FileZilla to transfer hosting from GitHub Pages to BlueHost

Work History

Saturday Night Live, Cue Card Writer

Jan 2014 - Present

Used time management skills to figure out what changes needed to be done and when during live tapings. Regularly coordinated with the script department to ensure all changes are in the correct version.

Night Late at UCB, Post Producer

Aug 2015 - July 2016

Handled the Twitter and YouTube channels to ensure consistent effort and branding was applied. Created all posters and promotional material, as well as edited videos and intros for the live shows.

Education

SUNY Purchase, 2014, B.A., *cum laude*, Arts Management
